award for the best poster\*

Theme : Diabetes - Award : 1 000 €

Registration : [www.egid.fr](http://www.egid.fr)

Université Lille 2  
Droit et Santé

Cette action est cofinancée par l'Union européenne.

## The circadian clock and diabetes

Joe Bass (Northwestern University)

## New insights in the genetics of monogenic diabetes

Andrew Hattersley (Peninsula Medical School)

## Immune control of beta cell function

Christian Boitard (Hôpital Cochin)

## Micro RNA and diabetes

Markus Stoffel (Institute of Molecular Systems Biology)

## Gut hormones : the lethal weapon against diabetes

Mathias Tschop (Helmholtz Zentrum)

## Epigenetics and diabetes

Susanne Mandrup (University of Southern Denmark)

## Metabolomics for gaining insights into metabolic disease mechanisms

Chris Newgard (Duke University School of Medicine)

## Metabolomic aspects of the gut-brain axis

Elaine Holmes (Imperial College of London)

## Immune regulation by tryptophan catabolism in type 1 diabetes

Ursula Grohmann (University of Perugia)

## Surgical weight loss, diabetes and cardiovascular mortality. The SOS study

Lars Sjöström (University of Gothenburg)
